

EB Curriculum

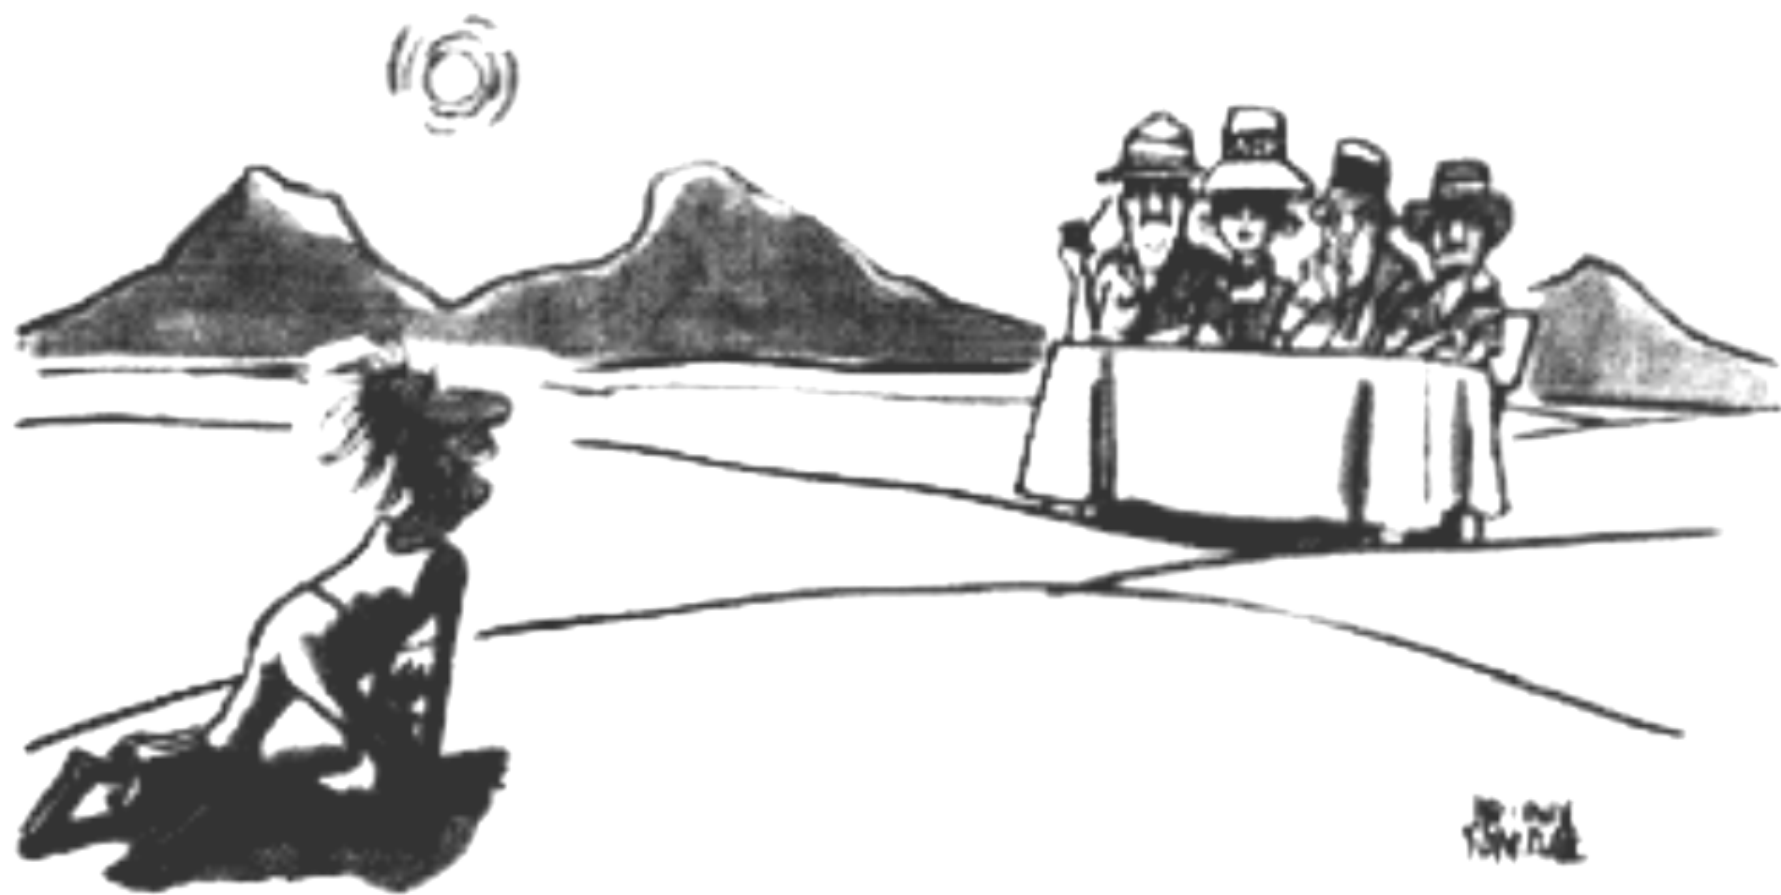

What's going on?

What should we do?

*Many star performers (You know who you are!)

EB Curriculum Working Group

- +++ work being done
- ++ disparity
- ++ reinventing of the wheel

"Thank God! A panel of experts!"

There is disparity in proposed EB Curriculum:

Hypothesis:

If we are privileged enough to gather together in such conditions as this (Sicily!), then we should . . .

Do something!

Sicily I, II, III, IV

To whom much is given,
much is expected.

Compelling Questions....

- I. Separate or integrated?
- II. To what depth?
- III. How should it be delivered?
- IV. What should it replace?
- V. Start early or late?
- VI. Why no impact?

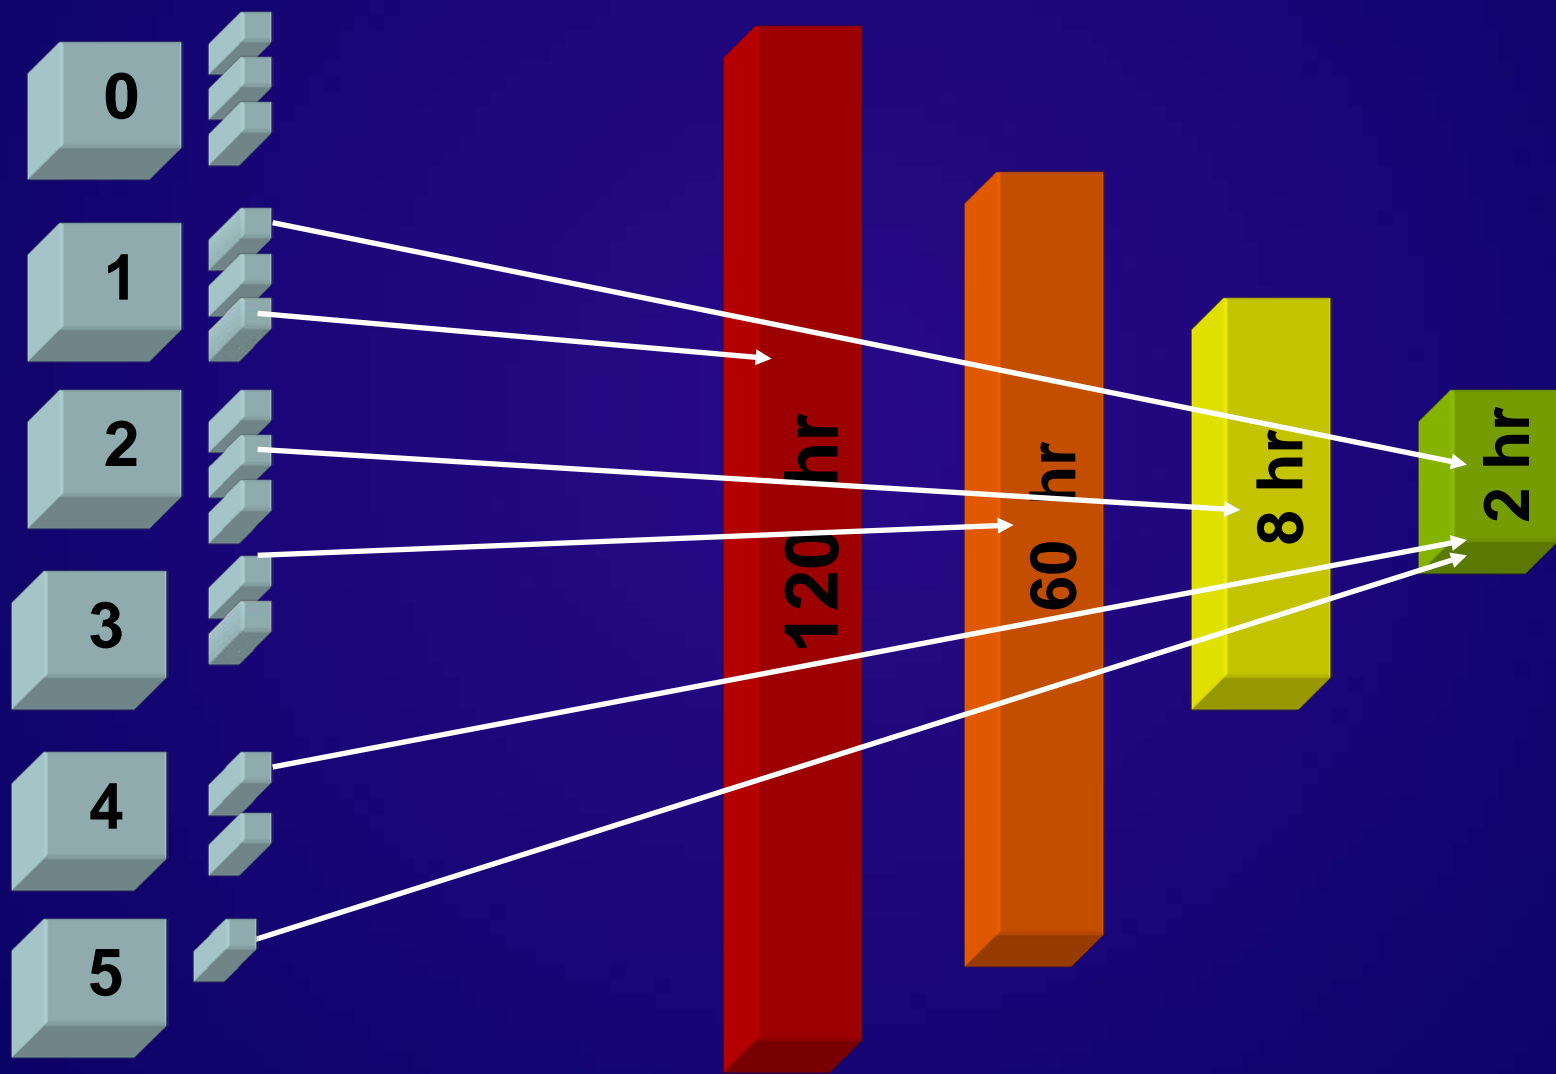

What is EB Curriculum trying to achieve?

**Could we develop an international standard
for EB Curriculum?**

EB Curriculum Working Group

Three tangible outcomes:

- I. Develop a statement of proposed curriculum
 - I. Sicily Statement II, Draft...
- II. Create a repository of available curricula
 - I. “safe and open collaborative environment”
 - II. Organized by key criteria (PECODR)
 - III. Searchable
 - IV. Social Networking
- III. Propose a workplan with timelines
 - I. Immediate (Editorial of discussions)
 - II. 12 mos (Repository of Existing Curricula)
 - III. 24mos (Draft Sicily Statement for EB Curriculum)
