Sicily 2009

The countdown to the 5th International EBHC Teachers & Developers Conference has begun.

Join in, learn about and share advances in EBHC while having fun! Building on 4 previous highly successful meetings, the program aims to foster international exchange and networking in the mutual pursuit of better tools, techniques, and curriculums for teaching and achieving EBHC.

You will discover an intense intellectual exchange in a relaxed and informal atmosphere.

Meet teachers and developers from around the world in a 3-day program that will include renowned keynote speakers, oral abstract presentations, poster displays, and productive small group sessions to foster exchange and development of new ideas.

You will be staying on the beautiful island of Sicily in the Mediterranean seaside resort of Taormina - famous for its never-ending sun, hospitable people, rich history, colourful culture, and healthy food. The conference venue is the Hotel Caparena, a lush scenario filled by the scent of a subtropical garden of palm and acacia trees, red hibiscus, and orange bougainville flowers.

Whether you are expert or novice, professor of students or teacher of colleagues, boardroom policymaker or frontline decisionmaker, if you are involved in teaching or developing "Evidence-Based Health Care", we look forward to seeing you in "Sicily 2009".

We promise you will be delighted.

Nino Cartabellotta, Janet Martin & Paul Glasziou
on behalf The Conference Steering Committee
